## Now That You Put It That Way . . .

Many a boy is the kind of kid his mother wouldn't want him to play with.

## Another Serving Of Meat

It won't help your grocery bill, but between now and May, we'll all be subjected to a generous serving of ham and bologna from a maze of candidates looking for somebody's job or trying to retain the one they have.

Between the platitudes on the backs, the handshakes and ambiguous political clichés, these men will break down and tell you how they really feel about what they're striving to do, or what they will do if elected.

It's going to be difficult, but you'll become an interpreter out of desperation and study what they say—you will if you're wise. From the governor to the dogcatcher—if he's running this year—you've got an obligation to yourself to find out who's qualified and who isn't ready yet.

Your contribution to better state, county and national government will be your efforts at self-education about candidates. This newspaper will do all it can to present the candidate's platform and background. Other news media will do their part to present the facts.

That's where you come in. Read, listen, talk about, ask questions about your candidates and their qualifications. As we said, it's going to be a problem to separate the ham and bologna from the real meat of the politician's message to you.

With good common sense, we'll visit the polls and elect the best of the crop. You'll never stop thanking yourselves for being alert and prepared.

## Playing Chess With Chessman

We're adding our voice to the reams and columns already written about convicted terrorist, Caryl Chessman, and his "act of God" reprieve with the thought in mind to arrest your attention about one point: The intervention of Federal government on what should have been a state's business.

We're also viewing with a critically-cooked eyebrow the intervention in the matter by a foreign power. A South American country said it feared demonstrations against President Eisenhower during his Latin American tour if Chessman wasn't reprieved. A top-level State Department executive who said the California governor to urge clemency in Chessman's behalf—and the death row resident got help.

Whether the subject is a convicted killer, or whether the subject is the south Florida peanut allotment, what right has a foreign government got to tell the United States what to do about it?

Some countries and some states do not permit the death penalty for any crime. It would be an interference on a state which did sanction the extreme penalty for anyone except the citizens in the specific state to attempt to change, alter or abolish that state's laws.

Where is our government's backbone and where is our national strength when the Federal Government allows other countries to make a mockery of our judicial system. National writers for all major newspapers and press services generally agree that Chessman had the full process of law to which he was entitled.

One of this country's founding principles was that we would not be pushed around figuratively or literally. Recent placation for unfriendly nations, our foreign give-away program, and now this—a country telling us what our courts and governors can and cannot do—doesn't seem to be palatable.

## Advertising Wins Again

Newspaper advertising set a new record in 1959, according to Charles T. Lipscomb, Jr., president of the Bureau of Advertising of the American Newspaper Publishers Association.

In a recent speech at Philadelphia, Lipscomb told a luncheon group that advertising totaled over \$3.5 billion in all newspapers, a gain of ten percent over 1958.

He went on to say that newspapers' share a total advertising increased from 31 percent in 1958 to 31.7 percent in 1959. Total advertising for all media was more than 11 billion dollars last year.

This appears to be a clear demonstration of the power of the press—newspaper advertising—to reach people and inform them. The gain in advertising mentioned above would have been impossible if that advertising didn't pay off for the advertiser.

Everything we use, eat, wear, walk on, drive or work with is advertised! One big reason why, is that people demand to be informed. When the buying public isn't informed about a product or service or where to obtain it, they'll obtain the product or service usually from their last source.

That comes home to many firms in the Glades when shoppers head for the coast instead of shopping at home. If they knew it were, sold at a comparable price, they'd stay home and shop with home folks nine times out of ten.

Three hundred and five billion dollars (spent with newspapers) can't be wrong. Let us serve YOU through our newspaper advertising columns.

"...AND PLEASE BLESS THE RED CROSS TOO FOR BEIN' SO GOOD TO ALL OF US!"

## Uncle Dan From Democrat River

Dear Mister Editor: I see by the papers where Senator Kefauver says we ought to have a full investigation of the "integrity" of our Government. Most folks back home would be satisfied if they'd just find it. When things are going bad in Washington, the Republicans claim the Democrats are running it and the Democrats say the Republicans are at the wheel. It confirms a suspicion I've had for years, that most of the time it's running itself. It reminds me of that time the Judge had two fellows up for being drunk and turning on their car over. When he asked one of them just who was driving at the time, the fellow scratched his head, studied for a spell and said: "Honest, Mister Judge, the last I recollect we was both riding in the back seat." When things ain't going good in the Congress, everybody in Washington is riding in the back seat.

What we call our foreign policy, for instance, has been wobbling around for years like a peanut in a punkin shell. The Republicans blame it on the Democrats and viser verter. And while they're arguing over whether the barn burned down or burned up, then Russians are busy building a bigger barn. In a manner of speaking, Mister Editor, you might say that we conduct our foreign policy on the twinedee and twinedee-dum system, with maybe the dum giving a little the best of it.

As a general thing, I figure the two-party system is the best form of Government, but sometimes I wish we could get a third party and put all the GOOD HOME COOKING — Come and bring the family! ## Jay-Cettes Hear Juvenile Counselor

Mr. Duncan gave an enlightening talk on his work and the Juvenile Court.

## YOUR CANDIDATE

The year 1960 has been termed one of Florida's most important years. From the governor's race to the smallest county office, a host of candidates announce their intentions to the public through this service. The Herald will introduce the candidates in the various election times.

Joel T. Davis III, appointed Palm Beach County Solicitor by Gov. Collins Aug. 1, 1959, now seeks the office in the forthcoming Democratic primary.

"I believe I am qualified to hold this office," Davis said, "and have tried to gather together a capable and qualified staff to insure able and impartial prosecution of all offenders charged in the Criminal Court of Record."

A county resident for 22 years, Davis attended county schools and was graduated from University of Florida Law School. Married, he has two children.

Among other organizations, I am a member of the Florida Bar, Palm Beach County Bar Association, the American Legion and Kiwanis Club of West Palm Beach and attend Holy Trinity Church. I am active in the Marine Corps Reserve and hold the present rank of captain," Davis concludes.

From my front porch . . .

"I watch the world go by."

The shamefully rigged quiz programs, the horrifying violence of some Westerns, the frequent shoddiness of "comedy" shows — television does have its faults, as who doesn't?

But it also brings us many good things. And, conscience-stricken it seems to be trying to bring more.

One such, of good, was the TV play, "Miracle on 34th Street." The pleasant and uplifting story revolved around the veteran (of old times, comical) Ed Wynn, who portrayed the character who believed he was Kris Kringle, and contended that all our problems could be solved by "love and consideration." And he proved it, in a fine piece of soul-warming acting.

It was doubly enjoyable to me, because behind the benign Santa Claus beard I kept seeing Ed Wynn, the gallant oldster who refused to let Hollywood shove him because of advanced age. He recently celebrated his 57th birthday, at the same time admitting the accuracy of vital statistics which give him 72 years.

Seems that Mr. Wynn started in show business 57 years ago. He feels 57 — and so that's what he will likely remain for a long time to come.

I admire and applaud the courage and character of Ed Wynn. The same goes for Jack Benny, who's been "90" these many years because he feels that age, despite what the birth

## Spacious Country Homes Is New Trend In Glades Area

**NEW HOME OF MR. AND MRS. C. A. THOMAS:** This spacious American Colonial home located at Lake Harbor, Fla., on US 17 consisting of overall dimensions of approximately 3,600 square feet, has four bedrooms, three baths, living room, porch, Florida room, kitchen, breakfast-dining room, utility and pantry, double car port and storage rooms. The home is completely air conditioned and heated and features a fireplace in dining-kitchen and TV cabinet wall and paneling in living room. The Thomas home was designed by Chester Albert Cona, AIA, architect of Belle Glade.

"A home on the farm" has not been the vogue in the Glades.

To have an American Colonial one-story, four bedroom home done in the modern contemporary south Florida manner and located near the middle of the owners' operations, may indicate a trend for Glades farmers.

C. A. (Mutt) Thomas, grower of winter vegetables at Lake Harbor and his wife, Virginia, realized ten years of planning and dreaming come true when they moved last week into their beautiful new home on the edge of Lake Harbor. The family includes four daughters, Molly, Jean, Martha Lynn, 11, Robin, 13 and Nola, 16.

The Thomases chose as their design, that of the American Colonial executed in a modern contemporary manner and is furnished throughout with Early American maple and cherry. Autumn colors including beiges and browns enhance the living room decor. Bedrooms are well papered and furnishings are keyed to the individual taste. The master bedroom features red and white, the two younger girls' room is lovely in blue and pink. Robin chose autumn colors for her room and sixteen year old Nola's room is a young girl's delight in blue and white.

The interior of the house was designed in a modern manner and although completely air conditioned, the layout of rooms and circulation with proper orientation, natural light and ventilation throughout, was of the utmost importance. The four bedrooms and baths are located in such a manner as to provide the maximum of comfort.

## BETTER-BRAKES...BUICK '60

## BRAKES HATE HEAT!

Buick's fin-cooled Aluminum Drums get rid of heat quicker so you're safer!

Brakes generate their own worst enemy—terrible heat. Excessive heat is bad because it may cause brakes to lose part of their effectiveness. So the faster you can dissipate it, the better off you are. Buick gets rid of heat faster by using fin-cooled brake drums. On the front wheels, where most of the braking is done, the drums are aluminum. They cost more to make but they shug off heat much faster than drums made of ordinary metal. Buick is the only American car that makes them standard, at no extra cost, because you will be safer with them. Best time to buy a Buick '60 is now because you will get top dollar on your old car and have a wide selection of colors and body styles from which to choose. You can own a quality Buick for less than you might think, and your Buick Dealer can arrange terms to suit your budget.

### Hospital Drive

## Workers Strive To Reach Goal

All workers of Belle Glade Hospital Auxiliary have conducted their door to door campaign in the current membership drive, but are now asked by the chairman to conduct a cleanup phase by striving to reach the set goal. That fourth down can be important.

Those who were unable to donate when called upon and those who were not at home may still contribute to this worthy cause by calling the following workers: Mrs. J. Finan WY 6-5357, S. E. section; Mrs. Ted Daniels, WY 6-3549; N. W. section; Mrs. G. Sanders WY 6-3068, business section; Mrs. D. W. Battie WY 6-3614, South West section.

It is hoped in this way all residents can say with civic pride, "We did our share for our hospital."

There are no deductions for any expenses incurred and all monies collected are used exclusively by the auxiliary to further their own efforts in the local hospital by a worthwhile project. Have you visited your hospital recently and viewed last years project? A newly furnished ward up to date room. Your hospital concerns you as well as others.

### Evaluation Meeting

Members of the auxiliary met at Mrs. Ballie's for coffee and an evaluation of their efforts in the current drive. They found that while donors or patrons giving is much on a par with last year, active and associate pledges are lagging.

It is realized this is a farming community and the elements play a part in the property, but pause and reflect what would we do without the convenience of a hospital in the town. Members of the auxiliary donate their time and projects at the hospital voluntarily with help in sewing from other organizations. They keep those behind the scene workers rolling along. If you can not shut the work with them, share your dollars.

Members attending were Mrs. F. D. Humphries, president; Mrs. I. L. Price, Mrs. Herbert D. Beck, Mrs. James Finan, Mrs. B. DeGraw, Mrs. Thomas Bregger, Mrs. O. G. McWhorter, Mrs. Donald Aspey, Mrs. H. O. Brunson, Mrs. George Sanders, Mrs. Irvin Zumpf. Two new collectors were added to the roster, Mrs. Sam Crisman and Mrs. L. P. Parson. They are soliciting donations at the Experimental Station and the Glades Prison Farm respectively. The drive ends this week.

## More Levee Construction Authorized In \$368,000 Contract Just Awarded

Colonel Paul D. Troxler, District Engineer for the U. S. Army Engineer District, Jacksonville, has announced the award to Reynolds & Smith, Inc., Moore, Florida, of a \$368,000 contract for construction of Section 2 of Levee 28 of the Central and Southern Florida Control Project.

Levee 28, when completed, will extend southward from the Everglades agricultural area at the Palm Beach — Broward County line through a portion of the State Seminoles Indian Reservation in western Broward County, and thence southward to Tamiami Trail (U. S.

Highway 41). Section 2 is a southerly continuation of 4.75 miles of levee beginning at the southern extremity of the previously-completed 2.5-mile Section 1 reach.

"Work on Section 2 is being undertaken at the time," Troxler said, "Primarily to ameliorate flooding and draining difficulties being experienced on Seminole Indian lands lying west of Sections 1 and 2 of Levee 28. The levee and its adjacent parallel canal will conduct water far enough south to afford some relief to the cattle pasture and other developments of the Indians."

### Wildlife Officers Get Name Tags To Wear

The next time you meet a Wildlife Officer in the Everglades Florida Region, you'll be able to remember his name while talking to him.

All law-enforcement personnel of the Game and Fresh Water Fish Commission have been issued metal name plates to be worn over the right shirt pocket, according to Louis F. Gaiway, Regional Manager, West Palm Beach.

The name plates are being issued to law-enforcement officers in contact with the public to assure easier identification of the officers.

Issuance of the name plates is part of a Commission program to render better service to the public, Gaiway said.

Those who are greedy of praise prove that they are poor in merit. —Plutarch

There was the dance at the Pahokee Youth Center last Friday night which is a regular weekend dance for them and then Saturday night the South Bay Youth Center put on their first dance in their new youth center, (South Bay Legion Hall).

## Merit Tests Set At BGHS Mar. 8

A total of 116 students of the Belle Glade High School plan to take the National Merit Scholarship Qualifying Test (NMQT) Vince Marquies, Guidance Counselor, announced today. The test will be administered at the high school at 8:00 a.m. Tuesday, Mar. 8. All students who wish to be considered for Merit Scholarships to be awarded in 1961 must take the test at this time.

The National Merit Scholarship Qualifying Test is a three-hour measure of educational attainment and college aptitude. Emphasis is on broad intellectual skills and on understanding and ability to use what can be learned, rather than on sheer knowledge of facts and figures.

The test is the first step in the six-year competition for Merit Scholarships and is provided by some 100 corporations, foundations, professional societies and individuals, as well as by the National Merit Scholarship Corporation itself. Over \$15,000,000 has been awarded in the first four years of the program.

The number of scholarships awarded in any year depends upon the extent of corporate participation. The basic continuing program is for \$1,000,000 a year.

For students taking the test on March 8, results will be reported to all participating schools before the end of the

spring semester in time for use by class advisers. The scores may also be used in many schools to help students make decisions about college and the most appropriate course of study.

## US Marine Corps Band Coming To High School

The US Marine Corps Band — the President's Own — will be at Belle Glade for two performances on October 23, at Belle Glade High School Auditorium, under the sponsorship of the Belle Glade Rotary and Lions Clubs and Band Parents Association.

By special arrangement, the Belle Glade and Pahokee schools will allow students to attend the after performance, which is for their particular benefit. The Clewiston schools are also invited to join the schools on this side of the lake.

The Glades communities are privileged to have this internationally-known musical organization to perform here.

School band members of Pahokee and Belle Glade will assist in selling tickets, for whatever profit is made will go to these organizations in accordance with tickets sold.

Announcement of ticket sales will be made later, and the public is invited to remember the dates, attend the performances and see your Glades musicians, professionally and financially.
